

400081 Aquarium Thermometer Mezuri

INSTRUCTIONS

Peel off the adhesive paper on the back carefully. Fix thermometer onto glass on the outside of the aquarium, below water line. Please make sure that the thermometer is placed out of the reach of direct heat source such as sunlight or spotlight, as this will affect the measuring results.

DIRECTIONS

BROWN: Actual temperature is slightly lower than this number.

GREEN: Actual temperature.

BLUE: Actual temperature is slightly higher than this number

TWO COLORS: Actual temperature is the average.
